Hello and welcome to Culinary Kids Academy, the most innovative and fun cooking program you and your child will ever experience! What makes CKA so amazing is that we use hands on, complex cooking classes as a vehicle to teach both General Studies subjects as well as Judaic Study! So not only do CKA students learn the valuable skill of cooking, they do so while reinforcing what they are actually doing in their school classroom and in Synagogue. Every CKA workshop is designed to augment and complement existing classroom curricula and are both grade level specific and standard based!

WHAT WE'VE LEARNED:

CKA has found that learning to cook increases student's level of independence, responsibility, self esteem and ability to choose a healthier, more expansive diet!

Additionally, because of the incredibly fun, story based, experiential nature of our workshops, students become extremely efficient at cognitively processing the lessons we cover. Even more exciting, these same enthusiastic students demonstrate the ability to retain these lessons far longer due to the manner in which they've been taught.

Lastly, our Judaic Study students have demonstrated that not only is their appreciation for their Jewish heritage heightened, but that heritage is made personal and relatable for them. They learn that within the rich tenets of Judaism, lie the tools to help them navigate through their own lives today - To perform Tikkun Olam and be the best people they can be.

THEY'RE LEARNING WHILE HAVING A BLAST! IT'S A WIN-WIN PROPOSITION!

So, we can't wait to be with your children and thank you for letting us teach them. We look forward to having them share with you all the fantastic things they'll learn with CKA during your evening dinner time... A dinner they've prepared for you of course!
